Sir:

In response to the Election of Species Requirement, dated September 12, 2006, Applicant elects Species III, on which claims 1, 3-8, 14-16, 18-24 are readable, for examination. This election is made without traverse. Contrary to the Examiner's position, Applicant believes that claim 1 is generic to all of the species.

Applicant submits that if any of the elected claims is found to be allowable, claims dependent therefrom should similarly be considered allowable in the same application. In addition, Applicant reserves the right to file a Divisional Application directed to non-elected claims 9 and 10.
